

Pair lean beef with fruit, vegetables, whole grains, and low-fat dairy to meet the USDA MyPlate recommendations and create a deliciously satisfying meal.

American Heart Association Certified Recipe

Ground Beef & Pasta Skillet Primavera

INGREDIENTS:

- ❑ 1 pound Ground Beef (96% lean)
- ❑ 1 can (14-½ ounces) reduced-sodium beef broth
- ❑ 1 cup uncooked whole wheat pasta
- ❑ 2 zucchini or yellow squash, cut in half lengthwise, then crosswise into ½-inch slices
- ❑ 1 can (14-½ ounces) no-salt added diced tomatoes
- ❑ 1-½ teaspoons Italian seasoning

6 INGREDIENTS

30 MINUTES

4 SERVINGS

PREPARATION:

1. Heat large nonstick skillet over medium heat until hot. Add Ground Beef; cook 8 to 10 minutes, breaking into ¾-inch crumbles and stirring occasionally. Pour off drippings.
2. Stir in broth, pasta, squash, tomatoes and Italian seasoning; bring to a boil. Reduce heat, cover and cook 9 to 11 minutes or until pasta and squash are almost tender and sauce is slightly thickened, stirring occasionally.

Small Steps for BIG Results

Aim for a Healthy Weight

Eating adequate protein plays an important role in weight management by helping you stay full between meals. Evidence shows that eating 25-30 grams of protein at each meal helps you to feel full longer and maintain a healthy body weight while preserving muscle mass, which supports healthy aging.^{1,2}

Choose Healthy Fats

Monounsaturated and polyunsaturated fats, including omega-3 fatty acids, can be beneficial to heart health. Include foods such as nuts, avocado, fatty fish, flaxseed, and lean cuts of beef.

More Movement

Aim for between 30-60 minutes of moderate intensity exercise most days. Start slowly and make it fun.

Moderate Alcohol Intake

Limit alcohol consumption to a maximum of one drink per day.

Boost Your Fiber

Dietary fiber can help you improve blood cholesterol levels and lower your risk of heart disease. Oatmeal, brown rice, whole wheat bread/pasta, beans, as well as whole fruits and vegetables are all sources of fiber.³

YOUR GUIDE TO A Heart Healthy Lifestyle

TEXAS BEEF COUNCIL

SNACK IDEAS

- Apple slices and beef jerky
- Carrots with hummus
- Unsalted nuts or popcorn
- Unsalted rice cakes with nut butter
- Cucumber sprinkled with lime juice

Grocery & Prep Guide

	Grocery List	Tips
Protein	<ul style="list-style-type: none"> <input type="checkbox"/> Beef: lean ground beef, round steak/roast, shoulder roast, top sirloin steak, kabob meat (top sirloin), tenderloin, fajita strips <input type="checkbox"/> Pork: tenderloin, loin chops <input type="checkbox"/> Fish: salmon, tuna <input type="checkbox"/> Chicken/poultry: skinless breast, tenderloins <input type="checkbox"/> Eggs <input type="checkbox"/> Beans: pinto, black, garbanzo <input type="checkbox"/> Soy: soy milk, tofu 	<ul style="list-style-type: none"> • Trim external fat from meat • Broil, grill, or roast meat and fish • Drain fat from ground meat after cooking • Rinse ground meat crumbles with hot water after cooking and before adding to dish • Limit consumption of deep fried and pan-fried foods • Remove skin from poultry
Non-starchy Vegetables	<ul style="list-style-type: none"> <input type="checkbox"/> Asparagus <input type="checkbox"/> Green beans <input type="checkbox"/> Bell peppers <input type="checkbox"/> Mushrooms <input type="checkbox"/> Broccoli <input type="checkbox"/> Okra <input type="checkbox"/> Brussels sprouts <input type="checkbox"/> Onions <input type="checkbox"/> Tomatoes <input type="checkbox"/> Eggplant <input type="checkbox"/> Carrots <input type="checkbox"/> Yellow squash <input type="checkbox"/> Celery <input type="checkbox"/> Cauliflower <input type="checkbox"/> Salad greens: arugula, kale, lettuce, spinach <input type="checkbox"/> Cucumber 	<ul style="list-style-type: none"> • Cook vegetables with a small amount of oil or no oil • Use garlic, herbs (rosemary, thyme, sage), pepper (black, cayenne), and other seasonings for flavor • Limit cooking in butter • Limit the use of salt in cooking and at the table • Fresh, frozen & canned are all great options! When choosing canned, look for no salt added • Fill at least a ¼ of your plate with non-starchy vegetables • Choose low calorie / low sugar salad dressings
Fruit	<ul style="list-style-type: none"> <input type="checkbox"/> Apple <input type="checkbox"/> Grapes <input type="checkbox"/> Orange <input type="checkbox"/> Banana <input type="checkbox"/> Mango <input type="checkbox"/> Berries <input type="checkbox"/> Peach <input type="checkbox"/> Melon <input type="checkbox"/> Pomegranate <input type="checkbox"/> Pineapple 	<ul style="list-style-type: none"> • Eat edible skins and seeds for added fiber and nutrients • Eat fruit as a sweet treat in place of other desserts • Keep fruit on hand and prepared for easy snacks
Grains & Starches	<ul style="list-style-type: none"> <input type="checkbox"/> Brown rice <input type="checkbox"/> Whole grain bread <input type="checkbox"/> Whole grain pasta <input type="checkbox"/> Oatmeal <input type="checkbox"/> Popcorn <input type="checkbox"/> Quinoa <input type="checkbox"/> Squash: acorn, spaghetti, butternut <input type="checkbox"/> Potatoes: regular, sweet <input type="checkbox"/> Corn tortillas 	<ul style="list-style-type: none"> • Choose whole grains at least half the time • Pick products that state “100% whole grain” on the label • Beans and legumes provide starch, protein, and fiber - a great addition to any meal!
Dairy	<ul style="list-style-type: none"> <input type="checkbox"/> Reduced-fat milk <input type="checkbox"/> Reduced-fat cheese <input type="checkbox"/> Cottage cheese <input type="checkbox"/> Yogurt <input type="checkbox"/> Calcium-fortified soy products 	<ul style="list-style-type: none"> • Choose reduced fat milk products most of the time • If you are lactose intolerant, try lactose-free milk • If selecting non-dairy options, look for soy products fortified with calcium

Enjoying Lean Beef and Taking Care of Your Heart

Research shows that beef can be part of the top two diets for heart health ranked by U.S. News and World Reports - DASH and Mediterranean - with no negative impact on blood lipid levels.⁴⁻⁶ In fact, about half of the fat in beef is monounsaturated fat, the same type of healthy fat found in olive oil.⁷

These are just a few of the delicious cuts of lean beef:

- Eye of Round Roast and Steak
- Top Round Roast and Steak
- Bottom Round Roast and Steak
- Cubed Steak (Tenderized Round Steak)
- Tenderloin / Filet Mignon Steak
- Tri-Tip Roast and Steak
- Top Sirloin Steak
- Strip Steak
- Flank Steak
- Brisket Flat
- Shoulder Roast and Steak

EASY TIP!

Look for “Round” and “Loin” in the name of the cut for many lean beef options.

Understanding Cholesterol

- Cholesterol is a waxy substance that your body needs to build cells, hormones, and other necessary compounds.
- Too much cholesterol can pose a problem. High blood cholesterol is associated with a higher risk of health conditions such as heart disease and stroke.
- LDL cholesterol is considered “bad” cholesterol, because it contributes to fatty buildups in arteries. HDL cholesterol can be thought of as the “good” cholesterol because it carries LDL (bad) cholesterol away from the arteries and back to the liver to be broken down and passed from the body.
- It is important to have your cholesterol tested, so you know your levels and can work with your doctor to maintain or improve them.
